LOADING & UNLOADING SOLUTIONS**

MARINE LOADING & UNLOADING SOLUTIONS

Our loading arms adhere to the highest safety standards. Designed and custom-built by a team of experienced experts, each marine loading arm is engineered to function effortlessly during transfer operations.

STANDARD FEATURES

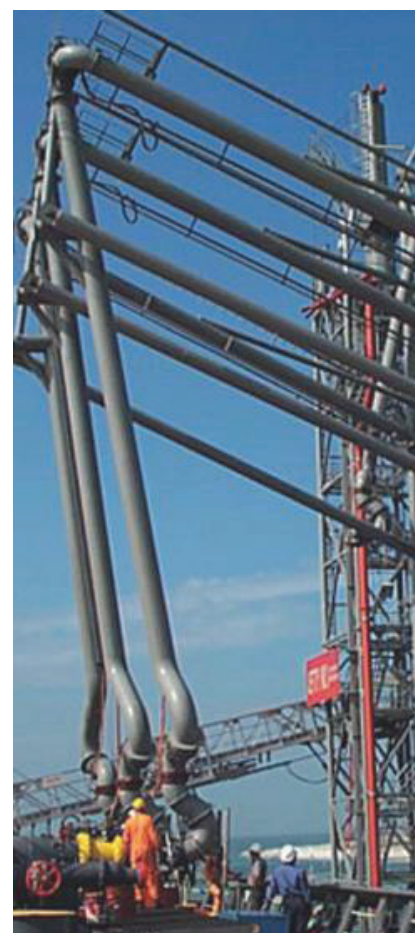

MANUAL OPERATION

Available sizes: 4" - 12"
Pressure Rating: 150# or 300#
Effective low-cost solution
No electrical or hydraulic controls required
Fully balanced
OCIMF-compliant
Low maintenance

HYDRAULIC OPERATION

Available sizes: 6"-24"
Pressure Rating: 150# or 300#
Rigid pantograph link
Fully counterbalanced
OCIMF-compliant
Low maintenance
Radio remote control or trailing lead pendant
Heat Tracing.
Cold/Hot Insulation

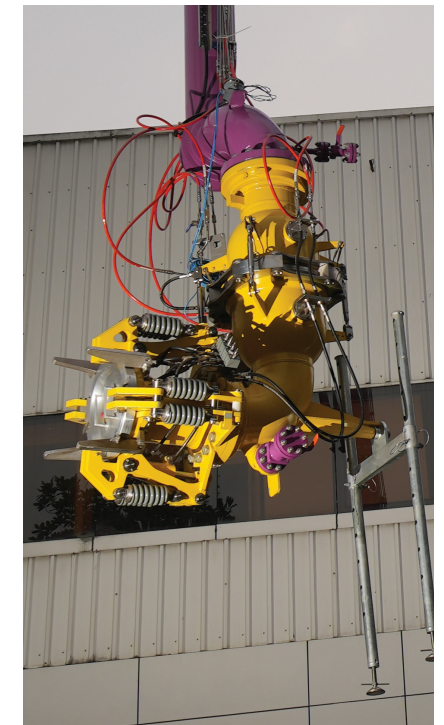

CRYOGENIC

Available sizes: 6"- 20"
Pressure Rating: 150# or 300#
Stainless steel structurally supported product pipe
Rigid pantograph link
Electro-hydraulic control system
Radio remote control or trailing lead pendant
Fully Counterbalanced
OCIMF Compliant
Low maintenance

ARM WITH EMERGENCY RELEASE SYSTEM

Available sizes: 6"- 24"
Pressure Rating: 150# or 300#
Rigid pantograph link
Electro-hydraulic control system
Fully counterbalanced
OCIMF-compliant
Low maintenance
Radio or trailing lead remote control

ADD-ONS

Manual/Hydraulic
Quick Connect/Disconnect Coupler (QC/DC)
Emergency release system (ERS)
(not applicable for Manual Operation)
Triple swivel support jack
Vapour recovery
Heat Tracing
Insulation
Constant Position Monitoring System
Ladders and access platforms
Product stripping system
Trailer mounted
Nitrogen purging
Remote lubrication
Range Alarm

Woodfield Shield, our comprehensive after-sales support programme, is designed to efficiently maintain all active equipment produced by Woodfield Systems.

Post-handover, a customer can avail of priority technical support from a highly responsive team of experts. The Woodfield Shield team provides on-site and online support and is committed to quick turnaround time.

We manufacture all the spare parts needed for any Woodfield equipment.
